Walking Fire Grate

## B250 Multi-Fuel Biomass Boiler

The HeatMaster B250 can burn coal, wood pellets, wood chips, screenings, blends of coal and grain or other pelletized fuels.

### Standard Features:

**Indoor and Outdoor Installation**

**Built with Titanium Enhanced 409 Stainless Steel**

**High Efficiency Firebox and Vertical Heat Exchange Tubes**

Engineered for maximum fuel economy and heat transfer while minimizing maintenance.

#### Auto Ignitor

Automatic Fuel Ignition

#### EZ Clean Handle

Clean the heat exchange tubes quickly and easily and reduce time for maintenance. No brushing tubes or scraping creosote!

#### Quick Fuel Loading

Bin lid rolls fully open for safe and easy re-fueling.

#### Firebox Sight Glass

A visual aid to check the combustion process without opening any doors and disturbing the burn.

#### Ash Drawer for Easy Ash Removal

Easy access ash drawer allows you to remove ash with ease.

#### Guardian Air Lock and Auto Fuel Feeding

Your best line of defense to ensure proper fuel flow and prevent fire from burning back to the fuel bin.

#### More Fuel Options with Different Types of Burners

Double your fuel options with different methods to burn cleaner and more efficiently.

Specifications	B250
Depth *WSB	109"
