## The Ultimate Wood Stove

Here is another challenge that the company J.A.Roby accepted when it created the biggest, most powerful and advanced combustion stove in North America.

In fact, the ULTIMATE possess a firebox capacity of 4ft<sup>3</sup> and accepts wood logs of 25”.

Its strengthened design on its stove top eliminates every risk of buckling.

The multi-position adjustment for the door, provides the ability to adjust the door pressure in order to get it more airtight. Adjust the doors angles or even adjust it horizontally or vertically.

Fuel	Cord Wood
Btu Range	up to 100,000
Heating Capacity	500 to 3,000 sq ft
Firebox Capacity	4.0 cubic feet
Burn Time	6 to 12 Hours
Door Opening	16” x 10.25”
Log Length	25”
Emissions	7.1 Grams per hour
Efficiency	N/A - Per CSA B415.1
Blower Size	150 cfm fan (optional)
Flue Size	6 inches
Min Chimney Height	12’ (includes stove pipe)
Weight	460 lbs
Depth	26”
Height	33-1/2”
Width	27-1/2”
Outside Air	N/A
Floor Protection	Non-combustible
Rear Clearance	10” *Minimum* W/DWSP
Side Clearance	20”
Front Clearance	48”
Min Ceiling Height	84”
Mobile Home Approved	No
Warranty	Limited Lifetime
Testing	ULC-S-627.00

### Standard Features:

- Heavy duty cast iron fire door
- Rugged steel construction
- Air-wash glass fire door system
- Fire brick lined fire box
- High efficiency combustion
- Heating by convection and radiation
- Low clearances to combustible materials

### Available accessories:

- Fans (2) and thermodisc
- Adapter kit (2 X 6" duct, 460 CFM fan & sensor)
