B2350 Wonderlux Wood / Coal Circulating Heater

The B2350 Wonderlux is a very unique circulator. With minor adjustments, it can be set to burn various types of fuels. It offers a non-catalytic, trouble-free, operating system that is thermostatically controlled. It is safe, durable, and versatile.

Standard Features:

- Non-electric, bi-metallic thermostat provides automatic comfort control
- Cooking surface with a lift top lid and positive safety latch
- Firebrick lined for long life and combustion efficiency
- Heavy duty, cast iron grates with shakers
- Easy access ash pan

Available Accessories:

- Ultra quiet blower
- B36TK- thermodisc kit for blower
- DR6- draft regulator
