SF Series Wood & Coal Boilers

LEGACY STOVES™

Advanced Design
Old Fashioned Value

Powerful and Efficient

The SF170 and SF270 boilers are compact, flexible and powerful hot water boilers.

Designed to burn pea, stove or nut coal, or wood.

Available domestic hot water coil option.

Advanced Design

High quality powder coat finish.

Increased heat exchange surface area.

Legacy Grate System extends heating by completely burning fuel to fine ash.

A large ash pan for less frequent ash removal.

Spiral chamber ensures consistent heat levels.

Horizontal water tubes add strength and additional efficiency.
